

Weekly Challenge!

Can you talk to me
about the weather?

Grown-ups:

This week and in half term, could you talk to your child about the weather. Could you talk about what the weather is like, eg raining, windy, blue skies, cloudy etc and how you know this eg because the trees are blowing or the ground is wet. If you can, go outside and experience the weather and talk about how it feels eg wet, cold. If your child is very interested in the weather you could introduce even more weather vocabulary or look at or listen to the weather forecast and talk about the symbols that are used, or look at weather events on the internet. You could post your child's experience of weather on their Tapestry account.
