Can we talk about litter?

Grown-ups:

Our focus this half term is our environment. Could you talk about litter. Could you talk about why we don't drop litter and where we should put our litter (recycle bins or general waste). When you are out and about, could you identify litter and if you have gloves on and it is safe, could you pick litter up and put it in the bins? You could post your child's experience of litter on their Tapestry account.
